Commitment and Vision

Ensis Solutions are a private training provider working in the public and private sectors and believe that businesses are responsible for achieving good environmental practice and operating in a sustainable manner.

We recognise that our activities have an impact on the environment in terms of the use of raw materials, emissions to air and water and waste generation, and seek to minimise this as far as is reasonably practicable. We are therefore committed to reducing our environmental impact and continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods. It is our priority to encourage our customers, suppliers and all business associates to do the same. Not only is this sound commercial sense for all; it is also a matter of delivering on our duty of care towards future generations.

Ensis Solutions are committed to:

- Continual improvement in its environmental performance.
- Preventing pollution.
- Compliance with all environmental legislation, regulations and codes of practice relevant to the industry sector in which it operates.

Policy Commitments

It is the policy of Ensis Solutions to:

- Make efficient use of natural resources by conserving energy and water, minimising waste, and recycling where possible.
- Meet its duty of care requirements in relation to waste by ensuring the safe keeping, transportation and subsequent recovery or disposal of waste.
- Use recycled construction materials whenever these can be commercially justified.
- Keep transport use to a minimum by use of smart delivery planning and implementation and regularly service vehicles to maintain their efficiency.
- Work with suppliers to ensure they recognise and reduce the environmental impact of their products and transportation.
- Actively promote the use of recycled materials.
- Establish systems for the prevention of pollution at sites.
- Keep sites clean and tidy to ensure minimum disturbance to clients and neighbours.
- Liaise with the local community to minimise disruption to the local environment.
- Encourage members of staff to feedback to management about the company's environmental performance.

Communication

We will communicate this policy to all our employees and ensure that they are given appropriate training to raise their awareness of environmental issues. Ensis Solutions will review this policy on an annual basis, taking account of any changes within legislation and our organisation, and any other factors.

Any changes to our policy will be communicated to employees and the amended policy made available through our Local Area Network.

Ensis Solutions will make this policy available when requested to interested parties including members of the public.
